

Centero

*Sie sind unser Antrieb
You are our driving force*

Simple and intuitive operation of your building technology with a smartphone or tablet

- ✓ Swift and simple installation
- ✓ Security thanks to reliable feedback
- ✓ Access your building technology worldwide
- ✓ Encrypted data transfer
- ✓ Free Centero app
- ✓ Use also possible without an Internet connection

Centralized building automation from elero – it couldn't be simpler!

Building automation in just a few easy steps with a smartphone or tablet

Centero by elero combines the benefits of the bidirectional radio system ProLine 2 with the comfortable and intuitive operation of your building technology using a smartphone or tablet. Centero is ready for use after just a few settings – and thus saves valuable time and money. It can be integrated into existing ProLine 2 systems with no problems at all and is therefore ideal for retrofitting.

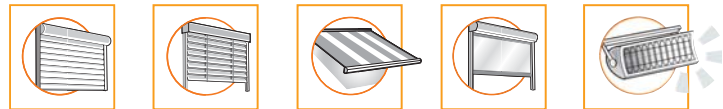

Further advantages:

- ✓ Taught-in devices automatically appear in the app, may be renamed, grouped or assigned icons.
- ✓ Even more living comfort thanks to individual scene modes and automatic controls.
- ✓ Various users can access the Centero at the same time with their smartphones or tablets.

Wissen was läuft!
Knowing what's up!
